

## Welcome Back Host

### Improvements and Support for Hosts of the AARP Driver Safety Program!

As a valued Host for the AARP's Driver Safety Program we are continually enhancing our systems and modernizing our processes to make it easy for YOU and your participants to benefit from these improvements. Our newest system improvements will help increase Driver Safety Program courses and your organization's visibility and exposure on AARP's website and other channels to reach prospective course participants on both a local and national basis. These new systems enhancements were built to help support key Hosts like YOU.

Some of the great new features and enhanced functionalities that are available to you, through your local DSP Volunteer with the AARP Driver Safety Program's Volunteer Portal:

- **Expanded access** to course options and scheduling information to schedule, confirm and publicize courses at your organization up to a year in advance. Changes, additions and course information can be managed 24 hours a day, 7 days a week, and 365 days a year.
- **Access** to order and select shipping preferences for course materials up to a year in advance when and where your volunteer wants to, including to your location on a pre-determined schedule as required
- **Access to up-to-date information**, training materials and webinars to help you and your DSP Volunteer better understand and have access to Driver Safety information
- **Future enhancements and improvements** will be able to provide reporting, promotion and participant and course history specific to your organization. Ask your Volunteer for more information.

Moreover, the benefits to you become even greater, as you attract a growing number of members and participants to your facility and gain additional awareness in your community. We're here for YOU – and look forward to assisting in your success with the AARP Driver Safety Program!

You or your DSP Volunteer can request further information and support through our Help Desk at 1-888-925-2002 or [helpdesk@aarp.org](mailto:helpdesk@aarp.org) or our "At Your Service Hotline," at 1-866-740-6912 or email Katie McGarr or Stephanie Bylskal at [portalquestions@aarp.org](mailto:portalquestions@aarp.org).
